Want some extra spending money? Want a fulltime income from part-time work? Already have enough money? Well, for those that are not completely in that situation, or just want a little extra spending money there is a method for making money on the internet called GPT.

WHAT IS GPT?

GPT stands for "Get Paid To" as in "get paid to fill out surveys" or "get paid to try out an offer." Companies do research by having people tryout products, view websites, among other things, and are willing to pay a certain amount to the people testing the products.

BUT ISN'T IT A SCAM?

There are definitely sites out there posing as GPT that have reports of not paying, so you have to be careful. I thoroughly research the GPT sites I am considering to be a part of prior to joining.

WHAT GPT SITE WOULD YOU RECOMMEND?

Cashcrate is one of the best GPT ("Get Paid To") programs I have joined. I have found it very easy to make money every day by simply doing free offers and filling out surveys.

After a lot of research on the internet I wanted to see if Cashcrate was a legitimate business. I didn't want to waste my time on something that didn't work or was a scam of some sort. What I found was that they are completely above board and pay their affiliates every month like clockwork.

CashCrate gets paid by the companies, and they pay 75% back to the affiliates testing the products. They keep 25%, which enables them to provide this useful service.

HOW DO I GET PAID?

The minimum payout is \$10. It is so easy to get this. The last time I checked there was a 100% free survey that pays out \$10, so you could get that with your very first survey! Other surveys pay anywhere from .80 to \$45, so you can easily make the \$10 minimum.

Payments are processed on the 20th of the month, so surveys done in July, for example, will be sent by check on the 20th of August.

REFERRALS

You can also make money by referring others to CashCrate. CashCrate has two levels of referrals. The first level is the people who sign up under you. The second level is the people who sign up under the people you signed up. You get paid a percentage of the amount that the referrals make. At the first level

(Bronze) you earn 20% of the first level and 10% on the second level.

(Don't worry about your referrals making less money. The money you get paid is in addition to the amount they make).

You can reach different levels depending on the number of people you refer:

Bronze - 0 Active Referrals - 20% First Level, 10% Second Level
Silver - 50 Active Referrals - 25% First Level, 10% Second Level
Gold - 150 Active Referrals - 25% First Level, 15% Second Level
Platinum - 300 Active Referrals - 30% First Level, 15% Second Level
Elite - 500 Active Referrals - 30% First Level, 20% Second Level

There is also a \$1 bonus for every active referral who completes their first offer.

You get a \$3 bonus when someone you sign up makes \$10.

After comparing the other GPT sites, Cashcrate paid the most - by far.

If you do decide to sign up, All I ask is that you sign up under my link: <http://www.cashcrate.com/273028>. This will allow me to finally get out of debt and reach my financial goal of working from home fulltime. It will also allow me to help you on each step of reaching your goals using CashCrate.

DO I HAVE TO DO REFERRALS?

I want to emphasize that it isn't necessary to do referrals to make money on CashCrate. You can make \$100-\$200/month by simply doing the surveys and offers in the "complete offers" section.

Another way is to take part in the \$.80 daily survey that is available every 24 hrs. Just doing that can make you \$24/month.

I don't like programs that pressure you into signing up other people. I was in a program before that did that and so I promptly got out.

CashCrate will never pressure you into signing up other people. But if you do decide to do it it allows you to share your success and help others be successful as well.

They have a great system, and it's amazing seeing the payout increase every day through no effort of your own other than sharing this opportunity with others.

WHO CAN JOIN?

Anyone can join. But people from English speaking countries have the most surveys and offers. The reason is that the companies want feedback from the people they market their products to.

One strategy that people from other countries use is to make referrals to the program. That way they can still make money from signing up people from English speaking countries. There's a way for everyone to make money using CashCrate.

SOME TIPS

- 1) Sign up with your main email address, but use an alternate email for the surveys and offers (since they tend to send junk email after you fill out an offer).
- 2) After sign up, read the forums. They have a ton of information and advice to make you more successful.
- 3) Contact CashCrate (or me) if you have any other additional questions.

Hopefully, this gives you some good advice for being successful with Cashcrate. Like I say, it's a great program, especially if your desire is to work from home, or on the road, or whatever. It can also just be a source of a few extra bucks now and then. I do know of a person that makes over \$1,500 a month doing Cashcrate surveys and referrals. That's over \$10 per hour working fulltime. She has reported that she only works 2 hrs. a day, but even if she stopped doing it for a month she would come back and because of her referrals the amount would be even larger. I'm not anywhere close to that yet, but I do want to make you aware of what is possible. For any financial goal, I think CashCrate can work for you.
