

## Cashcrate: tips and tricks

Contributed by Wang Zen

Here are some additional tips to make the most out of using CashCrate:

- Get Roboform . It's a free program that you can use to fill-in the most common registration fields such as "First Name", "Last Name", "Date of birth", etc. It makes it so much easier when filling out forms.
- Get an additional email address just for filling out offers. You can get an additional email address through Yahoo or Gmail . The reason is that these accounts get spammed to death. You need to check them for certain offers that require you to respond back via email, so it has to be one that is legitimate. Please note that you should sign up for CashCrate using your regular email for special messages they send out. I never receive spam from CashCrate under my signup email address.
- Sometimes it is more profitable to do the sites that are \$1 or less. Typically they only require that you register. Some of the higher paying offers make you go through several hoops before you can submit the offer for payment. With Roboform it takes me 10 seconds to fill out and submit the typical \$1 or less offer.
- I always sift through the offers using the dropdowns for "100% free" and then by "Payout." That way I don't need to subscribe to anything, or pay \$\$\$ and remember when to unsubscribe from magazines I do not want.
- Referrals are where the money is at. I've calculated how much a person can average doing just the offers, and it seems about \$12/hr on a high-speed connection using Roboform and a single PC. With multiple PCs your average may vary, but the higher rates that people are getting MUST be from referrals. How do you get referrals? Simple, post your referral link in areas that allow it to be posted: Discussion boards, blogs (like this one) , printed flyers, newspaper ads, buying ads on other websites - you know, marketing?
- Get an additional phone number for offers. They will call, especially the insurance offers.

Interested in hearing more? Signup under my CashCrate referral link: <http://www.cashcrate.com/273028> and I will send out a tip sheet with more detail on how to make the most with Cashcrate . I am also working on a comprehensive ebook on how to promote CashCrate most effectively. Once you are signed up under me you will be on my list to receive this free.
