

Why XSVCash may be better than CashCrate

Contributed by Wang Zen

CashCrate is a great way to make money online. I still use it and have built up a referral base that makes me money every month.

I think CashCrate is a great site but I think I've found a site that has the possibility of making you more money.

- XSVCash or "Excessive Cash" dot com has a better referral bonus structure

- XSVCash has one of the best referral bonuses around. See below.

- Earn a \$1 Bonus when your referral completes their 1st offer.

- Reach a milestone of 25 1st level referrals that complete at least 1 offer and receive a 1 time bonus of \$10.

- Reach a milestone of 50 1st level referrals that complete at least 1 offer and receive a 1 time bonus of \$20.

- Reach a milestone of 100 1st level referrals that complete at least 1 offer and receive a 1 time bonus of \$30.

- After reaching 100 referrals, for every set of 25 1st level referrals that complete at least 1 offer, receive a 1 time bonus of \$20.

- Other payouts include:

- Higher paying offers

- 5 referral levels instead of 2 on CashCrate

- \$1 referral bonus that CashCrate no longer has.

- Milestone Bonuses for reaching certain number of referrals.

- Payouts via paypal which cashcrate no longer has.

- All offers at XSVCash are 100%FREE. No credit card offers, trials, or cell submits.

This way you don't have to deal with offers asking for a credit card number. This also retains referrals longer since they won't run into offers that aren't 100% free. With XSVCash all the offers are 100% FREE, a higher percentage of my referrals complete offers and stay active because of this. This of course results in more commissions and bonuses.

Join XSVCash

I Highly recommend XSVCash
